## CHAIRMAN'S WORDS

I take immense pride in introducing Samyak Metals as a leading well-known company who has carved a prominent niche for itself in Aluminium Alloy ingot industry. Backed by years of experience in the scraps industry we have been able to add great value to metal scraps by recycling in most efficient manner and safeguarding the environment.

Samyak Metals will keep fulfilling its goal of being more productive, innovative and sustainable in delivering the very best to its customers, also safeguarding its working community and be an example to inspire rising

I feel overwhelmed by the Contribution and determination of individual directors, employees and the whole team for developing the business to such great heights and abiding by company's aim and policies of providing quality materials at right prices.

As a leading representative of the board I will regularly keep reviewing the composition of work and communication with stakeholders to maintain the credibility and progress.

The board has been proficient in its task of setting and implementing the company's direction and strategy and making Samyak Metals a reputable and leading company.

**Mr. Ravi Kumar Jain**  
**Chairman**

# OVERVIEW

Established in 2004, Samyak Metals Pvt Ltd. is one of the leading manufacturers of Aluminium Alloys Ingots & Liquid of different grades and specifications as per the stringent national and international standards. The group operates through its plant located in Dharuhera (Haryana) with the installed **capacity of 36000 MTPA of Aluminium Alloys ingots & Liquid.**

Samyak metals Pvt Ltd. is accredited with **IATF 16949:2016 , ISO 14001:2015 & ISO 45001:2018** certification. The progressive working of the last 17 years has provided the company with remarkable experience in non-ferrous metals especially in Aluminium scraps.

With an annual turnover of INR 300 Cr, Company's clientele has been expanding it's horizon, to name a few comprising: **Sunbeam Lightweighting, Rico Auto, Ask Automotives, Rockman Industries, Rane Madras, Mark Exhaust, Continental Engines, Lifelong India** etc.

The plant is operated by a unit of committed and proficient manpower of smelters and metallurgists. It is equipped with modernize Rotary & Skelner Furnances with automated sorting conveyors, auto feeders and various other quality control equipments used for alloy production.

# VISION MISSION & BELIEFS

Samyak Metals Pvt Ltd. will continue providing the highest quality end products to its customers, while supporting them to be the distinguished leaders in their respective industry. We will be continuing our promising journey of entrepreneurship with individual and combined team efforts through dedication, innovation and integrity. We lay equal emphasis on profitability as well as social responsibility and environment friendliness. We ensure our business is beneficial for employees both personal and professional growth.

## MISSION

Progressing successfully Samyak Metals most positively plans to expand business by adding production capacity with updated technology, and also working within environmental parameters to become an acclaimed and most sought after Company.

Staying true to our mission we have never stopped strategizing and innovating. We keep supplying best quality of alloys with timely delivery. Continue gearing up our production to provide molten/ liquid aluminum to our customers thus helping in reducing carbon emission to a great extent and respect environment.

## BELIEFS

We operate upholding our ideals that help us in balancing all key social, economic and environmental aspects which ensure that our business is viable for all associates..

## APPROACH AND IDEALS

A flourishing business has always witnessed good management of its workers right from top level down to foremen. Not only we respect our employees but have the 1:1 ratio of men and women employees which has contributed to our motto of women empowerment too.

Conducting the plant with favourable conditions for workers too  
Rendering exemplary customer services by valuing their business and not giving them a hard time.

Sell liquid aluminium and encourage recycling leading to a lot of savings for customers thereby reaping high profit.

Pursuing long-term targets through innovation by adapting new technology.

Always working on factors conducive for environment. Being responsible citizens we remain aware of our surroundings and do the utmost to protect it.

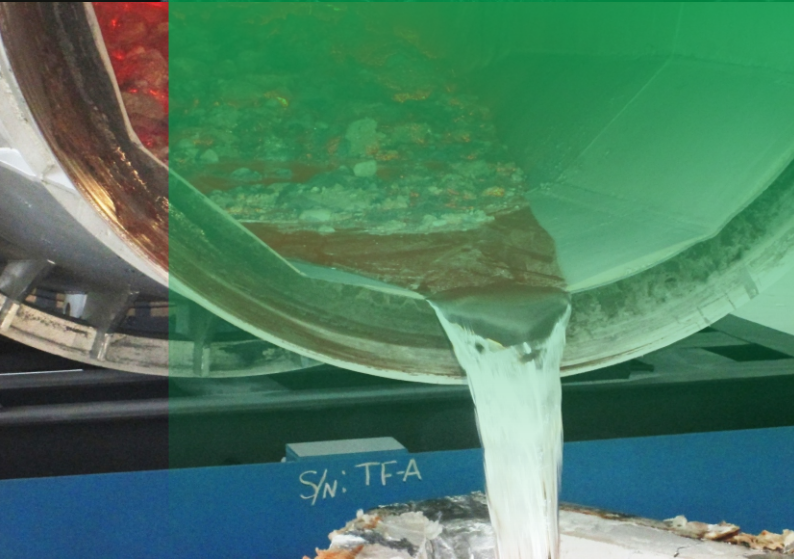

## PRODUCTS

Our company is playing aggressive role in supplying various grades of aluminium alloys both in ingot and liquid form . Our products are well acknowledged through out the whole aluminium original equipment manufacturers. We Produce wide range of ADC [JIS] and LM [BS] series alloy ingots

# QUALITY & CERTIFICATION

It is our mission to achieve customer satisfaction, we always keep quality parameters as our topmost priority. Our quality assurance department is well equipped with laboratory for chemical testing and has advanced analyzing equipment like spectrometer (spectromax).

Samyak metals is accredited with **IATF 16949:2016**, **ISO 14001:2015** & **ISO 45001:2018** certification which is important for us to enact growth, profitability and cost savings. The benefit of reducing waste also allow our work force to be more efficient and establish on going QMS standards for improvement.

## TECHNOLOGY

Samyak Metals has adopted ultra Modern scrap sorting technologies combined with gravity washing, automated feeders and transmission to improve production efficiently.

Our hot recycling department has rotary furnace (7 mt) & 2 skelner furnace (8.5 mt each) & 1 skelner furnace (10 mt) attached with European standard air pollution control machine.

## VALUABLE CLIENT

Quality and customer service are what distinguish us from others. We always strive to exceed our customers expectations and meet their requirements. Some of our respectable customer's are:
